Index to AGRICULTURAL ENGINEERING

Volume 29 — January to December, 1948

Issue	*Pages*
JANUARY	1- 40
FEBRUARY	41- 88
MARCH	89-136
APRIL	137-184
MAY	185-232
JUNE	233-280
JULY	281-328
AUGUST	329-368
SEPTEMBER	369-416
OCTOBER	417-464
NOVEMBER	465-516
DECEMBER	517-564

This is a combined alphabetical index to the contents of AGRICULTURAL ENGINEERING by authors, regular features, professional interests, and subject matter, including plants and animals concerned, materials, machines, processes, and key words in titles.

A

Adams, W. J., Jr.
New developments in garden tractors 15

AGRICULTURAL ENGINEERING (Agricultural Engineers)
Agricultural engineering challenges in the Southwest 162
Defining the engineer (E) 237
Problems of a college ag engineering department 262
Opportunities for agricultural engineers 289
Engineering as related to farm management 310
Specialization within agricultural engineering 337
The training of agricultural engineers 399
Agricultural engineering in the Northeast 493
What is professional recognition 495
Registration of professional engineers 547

Akesson, N. B.
Equipment for the application of herbicides 384
Almonds, suction machines for harvesting 305

Anderson, K. W.
Taking stock of farm power and machinery research 21

Armer, Austin A
Sugar beet harvesting in California 482

Arnold, Earl L.
A national cooperative plumbing program 432
Asbestos cement materials in farm building 14
Asphalt roofing, How to increase the life of 117
Awards (See Medalists)

B

Bainer, Roy
The processing of sugar beet seed 477

Baird, Ralph W.
Analytical procedures for determining the effect of land use on surface runoff (discussion) 64
Runoff and soil conservation practices 216

Ball, Charles E.
Reconditioning overdried hay 299

Barger, E. L.
Engineering-management aspects of self-propelled farm machines 106
Correction — Engineering-management aspects of self-propelled farm machines 161
Reconditioning overdried hay 299
Problems in the design of chemical weed-control equipment for row crops 381

Barlow, Gordon E., Jr.
Supplemental heat in mow drying of hay — Part II 251

Barmington, R. D.
The relation of seed, cell size, and speed to beet planter performance 530

Beale, O. W.
Irrigation requirements of South Carolina soils 157
Correction — Irrigation requirements of South Carolina soils 214
Beet planter, The relation of seed, cell size, and speed to 530

Bendixen, T. W.
Discussion — The flow of water through soil 122

Besley, Harry E.
Dairy barns in New Jersey 215
Agricultural engineering in the Northeast 493

Blackwelder, E. F.
Development of the Marbeet sugar beet harvester 481

Boyd, James S.
Functional design of a milkhouse 147

Brooks, Jesse B.
Toward easier feeding (letter) 401

Brown, O. A.
Engineering phases of curing bright leaf tobacco 109

Bulletin display, The ASAE best 442

C

Cable, The case against non-metallic sheathed 55

Calcium chloride, Drying seed grain with 112

Cannon, Rowland M.
Sugar beet harvesting in the intermountain area 482

Carpenter, Ray W.
Problems of a college ag engineering department 262

Carreker, John R.
Conservation farming on a 100-acre farm unit 60
Results of irrigation research in Georgia — Part I 243
Part II 301
Correction — Results of irrigation research in Georgia — Part II 389

Carroll, Tom
Basic requirements in the design and development of the self-propelled combine 101

Carter, Walter
Soil fumigation 434

Chemurgy, Interest in 143

Chinese agriculture and its mechanization 297

Clyde, A. W.
Engineering-management aspects of self-propelled machines (letter) 218

Collins, E. V.
Mathematics of a cumulative-drop planter 28
Problems in the design of chemical weed-control equipment for row crops 381

Combine, Basic requirements in the design and development of the self-propelled 101

Concrete drain pipe, Durability of 77

Concrete draintile for acid soils, Essential characteristics of durable 437

Concrete draintile for alkali soils, Essential characteristics of durable 485

Concrete septic tanks, Precast 431

CONSERVATION, Soil and Water (See also Drainage, Erosion Control, Hydrology, Irrigation, Soils)
Some ironies of soil conservation 9
Nation-wide conservation drainage operations 22
Soil conservation research 51
Conservation farming on a 100-acre farm unit 60

Effect of conservation practices on runoff ... 201
The mechanics of small earth dams 210
Rainfall-runoff relationships for small watersheds ... 212
Runoff and soil conservation practices ... 216
Some runoff control and moisture conservation possibilities ... 257
Flood surveys and flood control operations ... 307
Conservation research ... 475

Corncobs and other agricultural residues for industrial use, The storage of ... 11

Corn in the Piedmont, Irrigation of ... 353

Corn drying, Adapting cribs for ... 149

Corn picker, The engineering development of a light, two-row, tractor-mounted ... 197

Corn to bushels of shelled corn, How to reduce ear ... 294

Cribs for corn drying, Adapting ... 149

Crop conditioning equipment (committee report) ... 403

Cruz, Santiago R.
Agricultural engineering in the Philippines (letter) ... 498

Culp, M. M.
The effect of spillway storage on the design of upstream reservoirs ... 344

D

Dairy barns in New Jersey ... 215

Dallas, D.
The storage of corncobs and other agricultural residues for industrial use ... 11

Dams, The mechanics of small earth ... 210

Davis, Roy B., Jr.
Supplemental heat in mow drying of hay — Part II ... 251

Davis, W. D.
Engineering as related to farm management ... 310

Designers, The development of ... 99

Dobie, John B.
Determining the temperature gradient in hay ... 160

DRAINAGE, Land
(See also Hydrology)
Nation-wide conservation drainage operations ... 22
Durability of concrete drain pipe ... 77
"Nation-wide conservation drainage operations (letter) ... 218
Pilot error on ditching machines (editorial) ... 379
Electric power as a tool in farm drainage ... 430
Essential characteristics of durable concrete draintile for acid soils ... 437
Essential characteristics of durable concrete draintile for alkali soils ... 485

Draintile for alkali soils, Essential characteristics of durable concrete ... 485

DRYING — Driers
Types and performance of farm grain driers ... 53
Mechanical ventilation of ear corn ... 76
Engineering phases of curing bright leaf tobacco ... 109
Drying seed grain with calcium chloride ... 112
Adapting cribs for corn drying ... 149
Methods of field curing hay ... 159
Determining the temperature gradient in hay ... 160
Some 1947 results of barn hay drying research ... 208
Supplemental heat in mow drying of hay — Part II ... 251
Reconditioning overdried hay ... 299
Drying peanuts with heated air ... 397
Some factors affecting tung nut drying ... 545

DuBois, R. H.
A course in agricultural hydrology 165
Effect of end flares on capacity of irrigation siphon tubes ... 355

Dudley, R. F.
Methods of field curing hay ... 159

Dunk, Milton R.
The ASAE "best bulletin" display ... 442

Dunkelberg, George H.
Fence post preservation ... 152

Dunning, J. W.
The storage of corncobs and other agricultural residues for industrial use ... 11

E

EDITORIALS
Some ironies of soil conservation ... 9
Meeting indications ... 9
Soil conservation research ... 51
New model cows ... 51
Quantitative measures of hay quality 51
The development of designers ... 99
Factors in progress ... 99
Unit operations ... 99
Interest in chemurgy ... 143
Considerations in foreign aid ... 143
Serving farm markets ... 195
Coordination of production mechanisms ... 195
Farm hand tools ... 237
The second challenge ... 237
Defining the engineer ... 237
Wherefore private enterprise? ... 287
Mechanization in China ... 287
Profession-wide engineering ... 287
Specialization within agricultural engineering ... 337
Investments and water supplies ... 337
Pilot error on ditching machines ... 379
Control and instrumentation ... 379
Agricultural mobilization ... 475
Conservation research ... 475
Engineering and population pressures 475
... 523
... 523

Edminster, T. W.
Agricultural hydrology activities — Report of the Subcommittee on Evaporation ... 207

Effects on conservation practices on runoff (committee report) ... 114

Egg washer and drier, A new automatic 291

ELECTRIFICATION, Rural
(See also Refrigeration)
The case against non-metallic sheathed cable ... 55
Radiation uses and needs in agriculture ... 145
A new automatic egg washer and drier ... 291
Rural electric engineering ... 423
Electric power as a tool in farm drainage ... 430
The development of rural electrification in the Pacific Northwest ... 444

Englebach, M. V.
Asbestos cement materials in farm building ... 14

Engineer, Defining the ... 237

EROSION CONTROL, Soil
(See also Hydrology, Soils, Terracing)
Effects of conservation practices on runoff ... 114
Results of low-cost concrete flumes 303
Evaluating soil losses from field areas 394

Extension, This problem of agricultural engineering ... 255

F

Fairbank, J. P.
Suction machines for harvesting almonds ... 305

Fence post preservation ... 152

Flood control operations, Flood surveys and ... 307

Flumes, Results of low-cost concrete ... 303

Foss, E. W.
A problem for ag engineers in rural fire prevention and control (letter) ... 402

Frost, W. T.
The use of snow survey data for agricultural planning ... 490

Fumigants, Equipment for applying soil ... 435

Fumigation, Soil ... 434

G

Garden tractors, New Developments in 15

Gilmer, L. A.
Direct engine-driven power take-off (discussion) ... 245

Glass, John S.
Flood surveys and flood control operations ... 307

Grain bin floors, Improved designs for farm ... 338

Ground-water replenishment, Water spreading for ... 74

H

Hamilton, C. L.
Building safety into farm buildings... 57

Harrold, L. L.
Analytical procedures for determining the effect of land use on surface runoff (discussion) ... 64

Harvey, W. A.
Equipment for the application of herbicides ... 384

Hay, Determining the temperature gradient in ... 160

Hay, drying research, Some 1947 results of barn ... 208

Hay, How long chopped ... 166

Hay, Methods of field curing ... 159

Hay, Part II, Supplemental heat in mow drying of hay ... 251

Hay quality, Quantitative measures of 51

Hay, Reconditioning overdried ... 299

Heat loss from swine, Effect of environment on ... 525

Heating by refrigeration ... 203

Heitman, Hubert, Jr.
Effect of environment on heat loss from swine ... 525

Heitshu, D. C.
Basic requirements in the design and development of the self-propelled combine (discussion) ... 101

Herbicides, Equipment for the application of ... 384

Heth, S. C.
Basic requirements in the design and development of the self-propelled combine (discussion) ... 101

Hickok, R. B.
Some runoff control and moisture conservation possibilities ... 257

Hipple, J. L.
The International sugar beet harvester ... 480

Holman, Leo E.
Adapting cribs for corn drying ... 149

Hose, Plastic garden ... 393

Hosterman, W. H.
"Quantitative measures of hay quality" (letter) ... 218

Hukill, H. V.
Types and performance of farm grain driers ... 53

Hurlbut, L. W.
Taking stock of farm power and machinery research ... 18

HYDROLOGY — Hydraulics
Analytical procedures for determining the effect of land use on surface runoff ... 64
The flow of water through soil... 119
The effect of structural condition on soil detachment by raindrop action 154
A course in agricultural hydrology 165
Agricultural hydrology activities ... 205
The effect of spillway storage on the design of upstream reservoirs 344

I

Implements, Farm (See Machinery)

Innes, D. W.
Direct engine-driven power take-off (discussion) ... 246

IRRIGATION
Water spreading for ground-water replenishment ... 74
Irrigation requirements of South Carolina Soils ... 157
Results of irrigation research in Georgia — Part I ... 243
Results of irrigation research in Georgia — Part II ... 301
Irrigation of corn in the Piedmont... 353
Effect of end flares on capacity of irrigation siphon tubes ... 355
Plastic garden hose ... 393
Irrigation with sprinklers and portable pipe ... 541

Ittner, N. R.
Artificial shades for livestock in hot climates ... 239

J

Jezek, R. E.
Some factors affecting tung nut drying ... 545

Johnson, R. E.
Mechanical ventilation of ear corn... 76

Johnston, C. N.
Plastic garden hose ... 393
Further data from siphon tests ... 441

Jones, T. N.
Methods of field curing hay ... 159

K

Kaiser, W. G.
Precast concrete septic tanks ... 431

Keller, A. H.
The engineering development of a light, two-row tractor mounted corn picker ... 197

Kellett, Harold
Tillage on a vegetable farm ... 254

Kelly, C. F.
Artificial shades for livestock in hot climates ... 239
Effect of environment on heat loss from swine ... 525

Kelly, L. L.
Agricultural hydrology activities — Report of Subcommittee on Watershed Studies ... 206

Kincaid, C. A.
Results of low-cost concrete flumes 303

Kohnke, H.
Some runoff control and moisture conservation possibilities ... 257

Kranick, Frank N. G.
Direct engine-driven power take-off (discussion) ... 245

Krause, N. R.
"Direct engine-driven power take-off" (letter) ... 248

Krimgold, D. B.
Agricultural hydrology activities — Report of the Subcommittee on Runoff ... 205

L

Lavers, A. W.
Direct engine-driven power take-off (discussion) ... 245

Lesesne, F. F.
Irrigation requirements of South Carolina soils ... 157

Liddell, W. J.
Results of irrigation research in Georgia — Part I ... 243
Part II ... 301
Correction—Results of irrigation research in Georgia — Part II ... 389

Liljedahl, J. B.
Problems in the design of chemical weed control equipment for row crops ... 381

Lynes, W. S.
"Nation-wide conservation drainage operations" (letter) ... 218

M

MacDonald, W. P.
Field spraying equipment for weed control ... 390

MACHINERY, Farm
(See also Drying, Erosion Control, Tractors)
Taking stock of farm power and machinery research ... 18
Mathematics of a cumulative-drop planter ... 28
Basic requirements in the design and development of the self-propelled combine ... 101
Engineering-management aspects of self-propelled farm machines ... 106
The engineering development of a light, two-row, tractor-mounted corn picker ... 197
Chinese agriculture and its mechanization ... 297
Suction machines for harvesting almonds ... 305
The development of a new sugar beet harvester ... 347
Weed control in grain fields with the flexible harrow ... 352
Problems in the design of chemical weed control equipment for row crops ... 381
Equipment for the application of herbicides ... 384
Field spraying equipment for weed control ... 390
A resume of sixteen years of research in sugar-beet mechanization ... 425
Equipment for applying soil fumigants ... 435
The processing of sugar beet seed ... 477
The International sugar beet harvester ... 480
Development of the Marbeet sugar beet harvester ... 481
Sugar beet harvesting in California 482
Sugar beet harvesting in the Intermountain area ... 482
Sugar beet harvesting in the eastern area ... 484
The relation of seed, cell size, and speed to beet planter performance 530
The relation of planter development To sugar-beet seedling emergence ... 533
Technique for spray nozzle testing ... 539

Management, Engineering as related to farm ... 310

Manson, Philip W.
Essential characteristics of durable concrete draintile for acid soils ... 437
Essential characteristics for durable concrete draintile for alkali soils 485

Marvin, Virgil
Mechanical ventilation of ear corn ... 76
Electric power as a tool in farm drainage ... 430

Matthews, Charles A.
Spray painting farm metal roofs ... 542

Mayer, I. D.
Some runoff and moisture conservation possibilities ... 257

McBirney, S. W.
The relation of planter development to sugar-beet seedling emergence ... 533

McCormick, Elmer
Direct engine-driven power take-off — (discussion) ... 246

MEDALISTS
The 1948 A.S.A.E. Gold (D. G. Miller, Roy Bainer) ... 312

Milkhouse, Functional design of a ... 147

Miller, Dalton G.
Essential characteristics of durable draintile for acid soils ... 437
Essential characteristics of durable concrete draintile for alkali soils ... 485

Minshall, Neal E.
Effect of conservation practices on runoff ... 201

Mobilization, Agricultural (editorial) 475

Morris, Jack R.
Effect of environment on heat loss from swine ... 525

Morrison, C. S.
Mathematics of a cumulative-drop planter ... 28

Muckel, Dean C.
Water spreading for ground-water replenishment ... 74

N

NECROLOGY
David Pryce Davies ... 228
William D. James ... 228
Earl Nevin ... 228
Elmer McCormick ... 460

Nelson, Gordon L.
Improved designs for farm grain bin floors ... 339

Nicholas, John E.
Radiation uses and needs in agriculture ... 145

Non-metallic sheathed cable, The case against ... 55

Norton, R. A.
Problems in the design of chemical weed-control equipment for row crops ... 381

Nozzle testing, Technique for spray ... 539

O

Owen, Robert R.
Equipment for applying soil fumigants ... 435

P

Parks, R. R.
Suction machines for harvesting almonds ... 305

Paterson, J. J.
Technique for spray nozzle testing ... 539

Peanuts with heated air, Drying ... 397

Peck, Ralph B.
The mechanics of small earth dams 210

Peele, T. C.
Irrigation requirements of South Carolina soils ... 157
Correction — Irrigation requirements of South Carolina soils ... 214

Peikert, F. W.
Irrigation with sprinklers and portable pipe ... 541

Planter, Mathematics of a cumulative-drop ... 28

Plastic garden hose ... 393

Plumbing program, A national cooperative ... 432

Potato production, Tillage in ... 293

Potter, W. D.
Analytical procedures for determining the effect of land use on surface runoff ... 64
Agricultural hydrology activities — Report of Subcommittee on Ground Water ... 206

POWER, Farm
(See also Electrification, Machinery, Tractors)
Direct engine-driven power take-off 245
"Direct engine-driven power take-off" (letter) ... 248
The standard power take-off — is it good or bad? ... 249

Powers, John B.
The development of a new sugar beet harvester ... 347

Powers, W. L.
Durability of concrete drain pipe ... 77

"Precipitation, Dependable" ... 163

Professional registration of agricultural engineers (committee report) ... 403

Pulver, R. G.
A problem for ag engineers in rural fire prevention and control (letter) 402

R

Radiation uses and needs in agriculture 145

Reed, Charles H.
Farm structures designed for the self-feeding of hay and ensilage 488

Reeve, P. A.
Sugar beet harvesting in the eastern area ... 484

REFRIGERATION
Heating by refrigeration ... 203

Registration of professional engineers... 547

RESEARCH (For procedures and results of specific research work, see corresponding subject-matter headings)
Taking stock of farm power and machinery research ... 18
Research notes 29, 125, 167, 219, 315, 401 496, 548
Soil conservation research ... 51
Ag engineering research problems... 343

Richardson, Joe B.
Irrigation of corn in the Piedmont... 353

Rietz, George A.
Agricultural engineering on WGY farm forum (radio broadcast) ... 268
Opportunities for agricultural engineers ... 289

Residues for industrial use, The storage of corncobs and other agricultural ... 11

Roofing, How to increase the life of asphalt ... 117

Roofs, Spray painting farm metal... 542

Rouse, Hayden K.
"Dependable precipitation" ... 163

Rowell, Glenn
The case against non-metallic sheathed cable ... 55

Runoff control and moisture conservation possibilities, Some ... 257

S

Sack, Hans
Weed control in grain fields with the flexible harrow ... 352

SAFETY, Farm
Building safety into farm buildings 57

Samsel, L. G.
This problem of agricultural engineering extension ... 255

Schmidt, J. L.
How to reduce ear corn to bushels of shelled corn ... 294

Scranton, C. J.
Basic requirements in the design and development of the self-propelled combine (discussion) ... 101

Self-feeding of hay and ensilage, Farm structures designed for the ... 488

Self-propelled combine, Basic requirements in the design and development of the ... 101

Self-propelled farm machines, Engineering — management aspects of 106

Septic tanks, Precast concrete ... 431

Shades for livestock in hot climates, Artificial ... 239

Shanks, G. L.
Technique for spray nozzle testing... 539

Sheldon, W. H.
How long "chopped hay"? ... 166

Simons, J. W.
Drying seed grain with calcium chloride ... 112

Siphon tests, Further data from ... 441

Siphon tubes, Effect of end flares on capacity of irrigation ... 355

Slater, C. S.
The flow of water through soil... 119
Agricultural hydrology activities — Report of Subcommittee on Water-Plant-Soil Relationships ... 206

Smith, Dwight D.
Design of a terrace system from hydrologic data ... 263
Evaluating soil losses from field areas 394

Smith, E. V.
Agricultural engineering challenges in the Southeast ... 162

Smith, L. J.
The development of rural electrification in the Pacific Northwest... 444

Snow survey data for agricultural planning, The use of ... 490

SOILS
(See also Erosion Control, Conservation)
The effect of structural condition on soil detachment by raindrop action 154

Soil fumigation ... 434

Equipment for applying soil fumigants 435

Sorenson, J. W., Jr.
Drying peanuts with heated air ... 397

Spillway storage on the design of upstream reservoirs, The effect of ... 344

Spray nozzle testing, Technique for ... 539

Strahan, James L.
How to increase the life of asphalt roofing ... 117

STRUCTURES, Farm
Asbestos cement materials in farm building ... 14
Building safety into farm buildings 57
How to increase the life of asphalt roofing ... 117
Functional design of a milkhouse... 147
Fence post preservation ... 152
Dairy barns in New Jersey ... 215
Artificial shades for livestock in hot climates ... 239
Improved designs for farm grain bin floors ... 339
Precast concrete septic tanks ... 431
A national cooperative plumbing program ... 432
Farm structures designed for the self-feeding of hay and ensilage 488
Effect of environment on heat loss from swine ... 525
Automatic watering systems for poultry in winter ... 537
Spray painting farm metal roofs ... 542

Sugar beet harvester, Development of the Marbeet ... 481

Sugar beet harvester, The Development of a new ... 347

Sugar beet harvester, The International 480

Sugar beet harvesting in California... 482

Sugar beet harvesting in the eastern area ... 484

Sugar beet harvesting in the Intermountain area ... 482

Sugar-beet mechanization, A resume of sixteen years of research in ... 425

Sugar beet seed, The processing of... 477

Sugar-beet seedling emergence, The relation of planter development to 533

Sutton, John G.
Nation-wide conservation drainage operations ... 22

T

Take-off, Direct engine-driven power... 245

Take-off — is it good or bad? The standard power ... 249

Tanquary, E. W.
Taking stock of farm power and machinery research ... 20
The standard power take-off — is it good or bad? ... 249

Terry, C. W.
Some 1947 results of barn hay drying research ... 208

TERRACING
(See also Erosion Control)
Design of a terrace system from hydrologic data ... 263

Tile, Essential characteristics of durable concrete drain ... 437-485

Tillage in potato production ... 293

Tillage on a vegetable farm ... 254

Tobacco, Engineering phases of curing bright leaf ... 109

TRACTORS, Farm
(See also Power)
New developments in garden tractors 15

Tranter, Watson W.
Tillage in potato production ... 293

Tung nut drying, Some factors affecting 545

Turner, Arthur W.
Taking stock of farm power and machinery research 21
Ag engineering research problems 343
The training of agricultural engineers 399

Turner, C. N.
Automatic watering systems for poultry in winter 537

U

Uhland, R. E.
The flow of water through soil (discussion) 123

Unit operations 99

W

Walker, H. B.
A resume of 16 years of research in sugar-beet mechanization 425

Water spreading for ground-water replenishment 74

Water supplies, Investments and 337

Watering systems for poultry in winter, Automatic 537

Weed-control equipment for row crops, Problems in the design of chemical 381

Weed control, Field Spraying equipment for 390

Weed control in grain fields with the flexible harrow 352

Weldon, N. W.
Engineering phases of curing bright leaf tobacco 109

Whitt, D. M.
Evaluating soil losses from field areas 394

Winter, P.
The storage of corncobs and other agricultural residues for industrial use 11

Woodburn, Russell
The effect of structural condition on soil detachment by raindrop action 154

Work, R. A.
The use of snow survey data for agricultural planning 490

Wright, Forrest B.
A new automatic egg washer and drier 291

Y

Young, Vilas D.
Rainfall-runoff relationships for small watersheds 212

Yu, James Y. T.
Chinese agriculture and its mechanization 297

Z

Zastrow, Orville W.
Heating by refrigeration 203
